

SPOTLIGHT

The Official Publication of BTB School

We interviewed some of the new students, and all of them left quite a good impression!

What made you move to BTB?

BTB school is the best school they can ever get in Pluit, Musra Karang and Ancol area as BTB has the Checkpoint, IGCSE and IB Diploma (IBDP) programme. BTB also has a lot of activities and fun events that made other students feel attracted to be part of the BTB family. The students and teachers in BTB are also very friendly and open-minded. They are friendly with anyone new, which made the new students feel like they are appreciated in school. They also chose BTB as their school because it is well-known for its famous IGCSE and its IBDP programme.

What do you like about BTB?

The new students chose BTB to be their bridge to a bright future because of the school itself and its facilities. It has adequate facilities such as the futsal/basketball court as well the volleyball court. Not only that, the school also has a very big assembly hall that is usually used to gather all of the BTB students.

What do you think about the rules and regulations conducted in BTB?

The rules turn out alright in the end. They are not too strict and yet not too lenient. They're just perfect for the students. But some said that the penalty for skipping class when they are late is not too effective and they hope to see improvements here in the school.

What do you hope to see in BTB?

First of all, every student in BTB never stops wishing to make their second home a better place for themselves and also for everyone to see. Having a BTB Cup is the most popular opinion raised by the new students! BTB also has a student council that can help the school officials in every way. The new students also likes the idea of having the school enlarge its space so that they can study more effectively.

SPORTS DAY

CONGRATS GREEN DRAGONS!

Every school has its own unique events happening every year, and every year at BTB, we have an event called Sports Day, in which the day will be used for playing sports while competing with the other teams to get 1st place. This year, the sports that were played were basketball, soccer, mattress relay, tic-tac-toe relay, as well as tug-of-war.

Of course on Sports Day everyone would be either hungry or dehydrated. Luckily, some of the grade 11 students held a booth for us to buy their food.

Even if this event only happens once a year, BTB just never fails to amaze me and I actually feel proud for once.

By: Irvine Margaretha (11 Einstein)

PRIMARY & ECY SPORTS DAY

Sports Day is really a good event to have, as schools understand the importance of having fun whilst learning. Sports teaches students how to win and lose with good grace.

Brentley 5S

It's good to have sports day where we can take a break and put our books down. We meet friends from other classes and be competitive outside class.

Gissell 4E

I hope next year's sports day will be just as fun!

Fenice 5S

I'm from the Green Team. The Green Team was very competitive and always worked together, so this year we became the champion. I hope next year my team can be the champion again. My favourite thing about Sports Day is you can just play all day. The games were all very fun and enjoyable.

We should also have cycling competition, dodge ball and badminton match. I would also suggest having swimming competition, but our school doesn't have a swimming pool!

Eragon
Eragon is the first book of the Eragon series by Christopher Paolini. This Sunday Times best seller novel is a perfect book for high fantasy book lovers. The story is about a poor boy name Eragon. He lives with his family in a dirty old wooden cottage. He didn't go to

school. So what he does everyday is chop wood in the forest one morning while he was chopping some oak wood he found a dark blue gem hidden under the oak wood tree. He tried to sell the gem to some old butcher Dan. He didn't accept so, he has to come home with nothing but a worthless gem. The next morning the gem hatched into some thing amazing!

You want to know more, you will enjoy the book! I recommend it!

HONESTY BOOTH

(CREATIVITY ACTIVITY BOOTH)

WRITTEN BY :
AGNES VALENCIA
11 NEWTON

'Big things have small beginnings' and this was the aim of the 'Honesty Booth' held by the grade 11 on August 2016: to build honesty and trust in every single BTB individual as an effort to create a so-called 'highly integrous society.'

So what is an honesty booth? To put it simply, it merely is a 'food selling' booth, except the booths are unattended. Purchases are made by the customers themselves, and whether or not they pay a fair price for the goods they take depends on their own conscience.

BTB students from all grades showed interest and enthusiasm to give a helping hand to the less fortunate. The teachers were also not willing to be left behind for this noble cause. The grade 11 provided the snacks unavailable in the school canteen, and it was indeed a pleasant surprise to see all BTB family came up together and bought the snacks. At the end of the 2 weeks, we, the grade 11 students, felt exceptionally satisfied and proud to have come upon the fact that every student had performed and expressed their honesty, which was essential to the success of the event. All the hard work done in organizing this event was paid off. On behalf of the grade 11 students, I would like to thank everyone who were directly and indirectly involved in this event, especially Ms. Sheryl who was in charge of this Honesty Booth.

Inauguration of BTB Student Council 2016

Do you guys still remember the inauguration of our school's student council body that took place on 18 August 2016? If you don't, here's a recap of what happened made by our student council president himself.

Delivering persuasive speeches from left and right, this year's zealous battle for the Student Council President and Vice President Throne was indeed one worth watching. The students' enthusiasm was at its peak during the voting day for their favorite candidate on the 12th of August 2016. Yearning to finish the program with a high note, the school had once more opted to conduct the annually held inauguration on the 18th of August.

The feminine yet strong voice of our Kepala Sekolah, Ms. Willi, amidst the silence on the court grabbed the attention. She called upon the selected members of the student council. Eyes were glued on the selected student council members stationed in the middle of the court, their applause superimposing Ms. Willi's speech.

Their attentions were soon shifted to the pledges the members of the Student Council were constantly stressed upon, reminded that they would be the school's paragons, and that "with great power comes great responsibility." Soon after, the members of the student council received the honor to wear the council tie with alacrity from their honorable principals, as an insignia to show their importance and status within the school.

Now, officially members of the student council, all the staff of the school began extolling them of not only their status, but also for the unique sense of choice for an unrivaled cabinet. When one of the students (Elmo Marivell, Grade 11N) was interviewed pertaining to his experiences during the prestigious ceremony, he said, "I am beyond ecstatic and extremely proud that I am given such an important role within the school."

To all the student council members, this is just a mere beginning of BTB student council's venture. Hold your heads up high and soar to the sky.

Aldo Herman, 11 Newton
